EX No.3.2. CREATE 3D MODEL FROM ORTHOGRAPHIC PROJECTION

DATE:

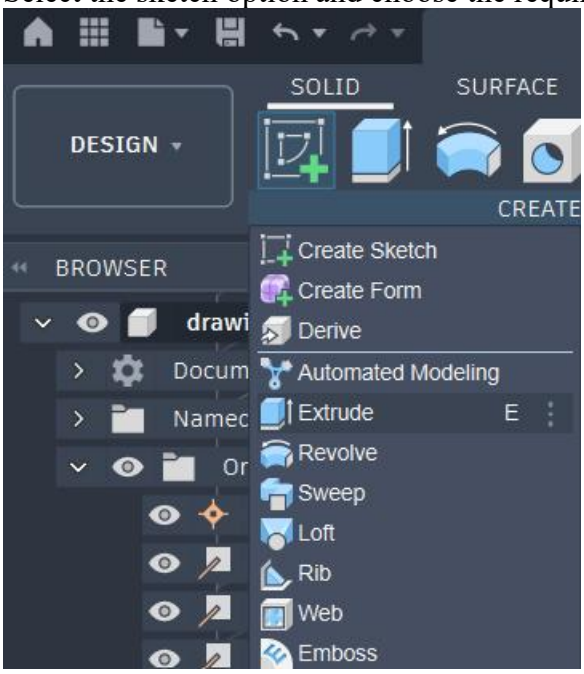

AIM:

To create a 3D model from given orthographic projection.

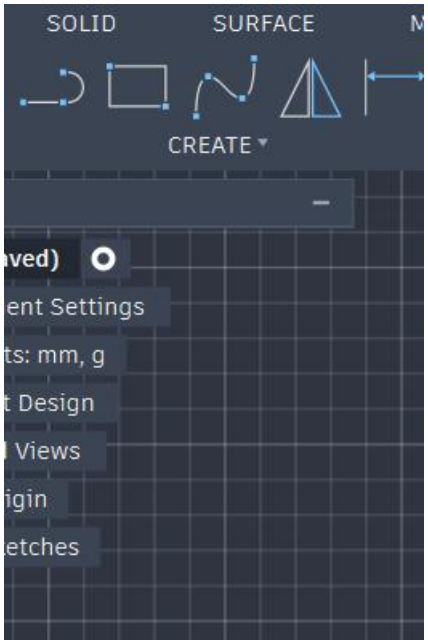

REQUIREMENTS:

1. Autodesk fusion 360
2. Windows 10
3. 16 GB of RAM (integrated graphics recommend 1 GB or more)
4. 2.5 Mbps or faster download; 500 Kbps or faster upload

PROCEDURE:

1. Open Auto CAD Fusion 360 and create a new file.
2. Select the sketch option and choose the required plane for sketching.
3. 

3. Use line, circle, arc and rectangle tools to draw the given design.

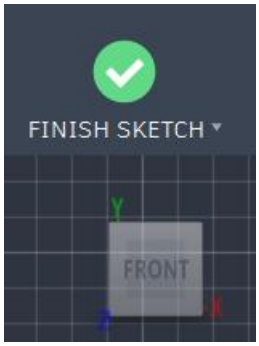

4. Enter the required dimensions using the dimension tool.

5. Use trim and other sketching tools to remove unwanted lines.

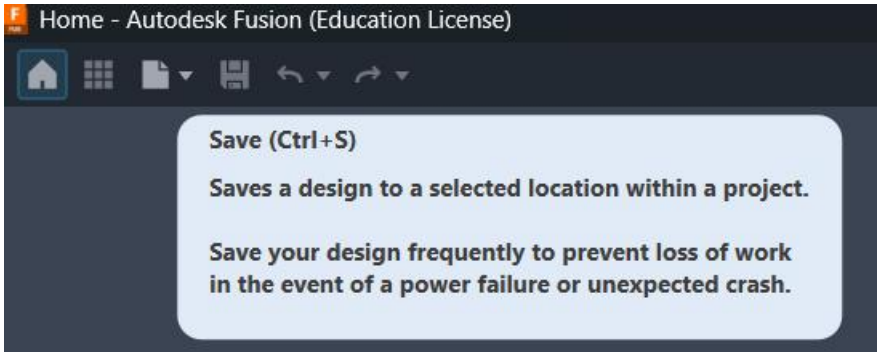

6. After completing the drawing, click on Finish Sketch.

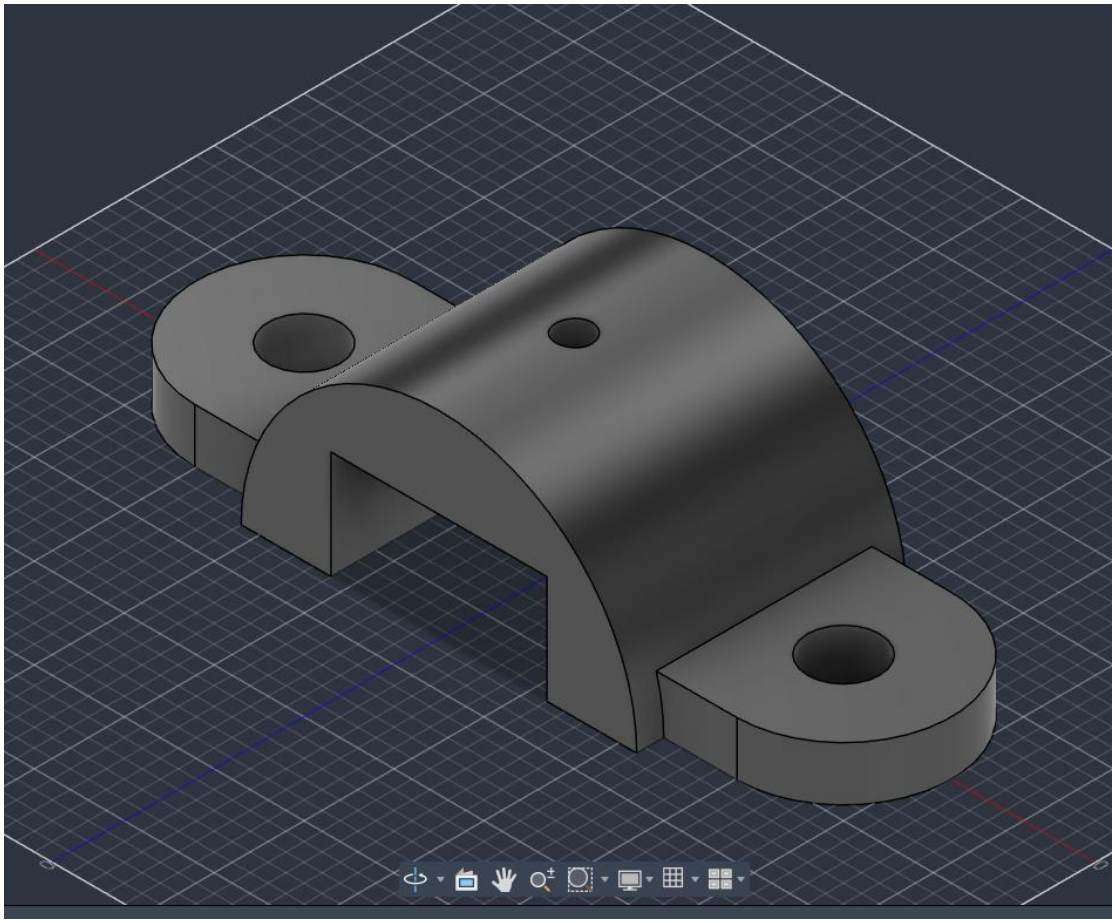

7. Check the drawing and make sure all dimensions are correct.

8. Save the completed drawing in the required file format.

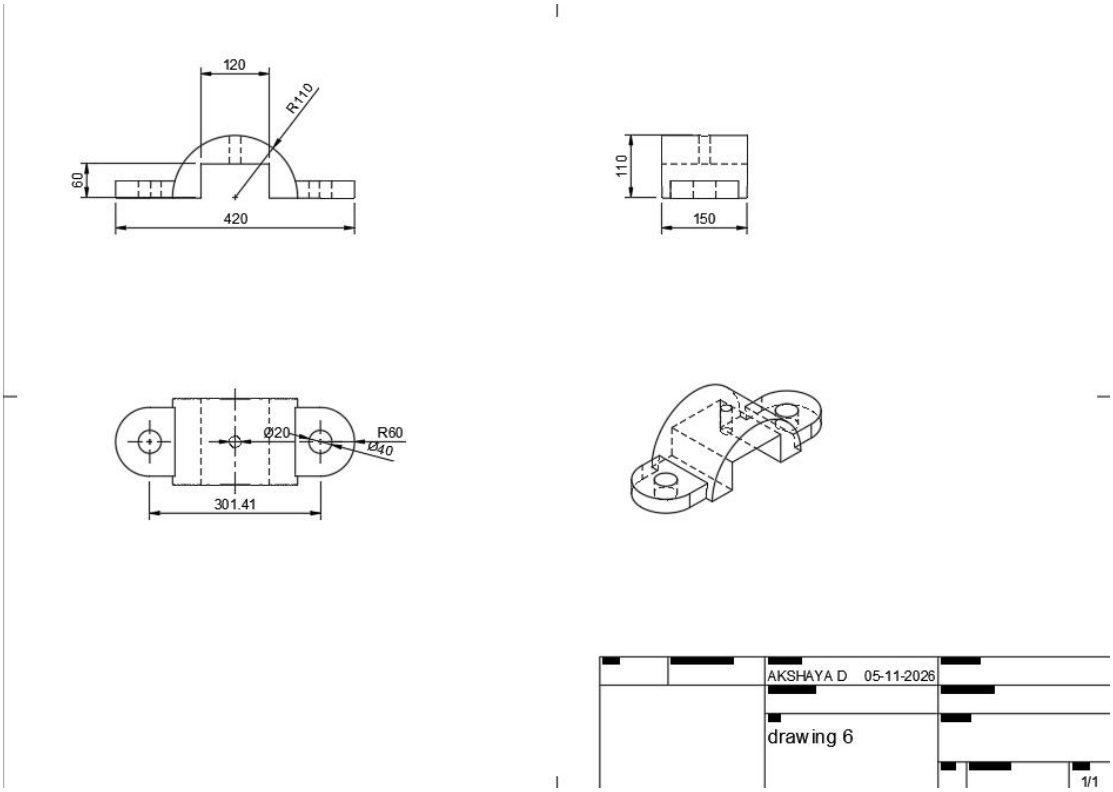

9. Finally, verify the drawing and close the workspace.

INPUT:

OUTPUT:

RESULT:

Thus, 3D model is created from orthographic projection.
